

About Us

Hot Tubs Built for the Demands of Holiday Rentals

Most hot tubs are built for occasional home use, not the heavy daily demands of holiday parks, lodges, retreats and Airbnb properties.

At Tubology, we supply commercial-grade hot tubs designed specifically for the holiday letting industry, featuring over 20 specialist design solutions — many unique to us. By selling factory-direct at wholesale prices, we deliver exceptional value without compromising on quality.

Through our partnership with a specialist manufacturer in Nashville, USA, we work with the world's only production facility dedicated to hot tubs for holiday parks and rental accommodation across the UK and Europe.
